### **Evolute Systems launches 'Impress'**

#### **India's Fastest Thermal Printers**

2010, Mumbai : Evolute Systems rolls out 'IMPRESS' - a series of next generation Fastest Thermal Printers. Impress has several innovative new features to ensure high performance, unbeatable reliability, unmatched printing speeds and excellent print quality. It can print up to 18 lines per second with 24 or 42 characters per line.

It is a slave device which prints and facilitates the peripherals according to the commands issued by the master device such as a mobile phone, PDA, notebook or any other intelligent device. As a fully loaded unit, IMPRESS comes with internal battery, Bluetooth, GPS module, USB 2.0 interface, serial port interface, fingerprint scanner, magnetic card reader, dual smart card reader etc.

The 122x82x40mm (220gms) compact IMPRESS makes an ideal printing solution for applications like Identification, Authentication, Micro finance & Micro banking, Public Distribution System, Mobile Point Of Sale, retail and sales automation system, m-Commerce, e-Governance, last mile data collection system including proof of delivery, area based security management & tracking, fleet management, ticketing, real-time data printing like ECG, and many more.

"Announcing the launch exemplify our vision of providing inventive and affordable solutions to various verticals. Evolute has blended the right flavors in technology to bring intelligent innovation to the world. It could be the new driver for the industry to serve the best." stated **Mr. Parag Mehta, Chairman and Managing Director, Evolute Group.**

#### **Major Features of 'Impress'**

1. Finger print scanner with ANSI and ISO 19794-2
2. 2 track ISO 7813 magnetic card reader
3. Single / Dual ISO 7816 smart card readers
4. BAR code reader interface to read all industry standard BAR codes
5. RS232 serial port interface speeds up to 115 kbps
6. 2" Thermal printer which supports multiple fonts, barcode and graphic printing.
7. Battery operated unit
8. Full speed 2 channel USB 2.0 device
9. Bluetooth V2.1 + EDR interface
